

SECRET

DIARY NOTES

25X1A

DD/S

30 June 1959

1. I appeared with the Director before the Kilday Committee to discuss Mr. Kilday's letter concerning the expansion of the General Accounting Office audit activities in the Agency. The Director advised Mr. Kilday that he wanted to acquaint the President with this problem, after which we would initiate discussions with the Comptroller General to see what could be done to expand his audit activities in a manner which would be mutually acceptable. We would then report back to the Committee. Mr. Kilday indicated that this was entirely satisfactory.

3. [REDACTED] telephoned to say that at the last minute DD/P had found another \$185,000 which they were inclined to allow the Technical Services Staff to use. However, inasmuch as DD/S had provided \$205,000 for Project WALNUT, Dick Bissell would be reluctant to give TSS this money if I had any objection. I told Vernon to tell Dick that I had none.
